Chemistry Lab Report

Completed 2 days ago

Do's
– Use primary colors for main actions such as starting a session
– Maintain consistent spacing between cards
– Use icons alongside text to improve clarity
– Keep text short and readable

Don'ts
– Do not use more than one primary color in the same component
– Do not overcrowd screens with too many elements
– Do not use icons without labels
– Do not mix different button styles in the same screen

End Session?

Are you sure you want to end your focus session? Your progress will be saved.
